

# Superstore Sales Data Analysis Dashboard

## 1. Objective

To conduct an in-depth analysis of Superstore sales performance across **regions**, **product categories**, and **customer segments**, with a focus on identifying:

- Key profit drivers
- Underperforming areas
- Market growth opportunities
- Trends over time that influence strategic decision-making

## 2. Dataset Description

- **Source:** Kaggle – Superstore Sales Dataset
- **Size:** 10,000+ transaction records
- **Time Period:** 2014–2017
- **Data Fields:** Sales, Profit, Category, Sub-Category, Region, Customer Segment, Order Date, Ship Mode, etc.

## 3. Tools & Techniques Used

- **Tools:** Power BI, Excel, SQL
- **Skills Applied:**
  - Data cleaning & preprocessing

- DAX calculations
- Creation of interactive dashboards
- Descriptive and comparative statistical analysis
- Trend analysis & performance segmentation

## 4. Key Performance Indicators (KPIs)

Based on the summary cards in your dashboard

✓ **Total Sales: 2.30M**

✓ **Total Profit: 286.40K**

✓ **Average Profit Margin: 12.47%**

These KPIs provide a high-level overview of overall business health and profitability.

## 5. Dashboard Visuals Detailed Breakdown

### A. Sales by Region

- **West Region:** Highest contribution – *31.58% of total sales*
- **East & Central:** Moderate performance
- **South:** Lowest profit margins despite decent sales

### B. Sales by Category

- **Technology:** Highest sales (~836,154) and highest profit
- **Furniture:** Lowest profit (18,451)
- **Office Supplies:** Lowest sales (~719,047)

### C. Profit by Category

- Technology far outperforms other categories
- Furniture shows weak profitability

### D. Sales Distribution by Region (Pie Chart)

- West dominates
- Central and East follow
- South contributes the least

### E. Yearly Sales & Profit Trend

- **Best Year:** 2015–2016 (steady upward trend)
- **Years 2014 & 2017:** High sales but **low profit**, indicating potential discounting or cost issues

### F. Top 10 Product

- **Top Product:** *Canon ImageClass 2200*
- Other technology items also appear, reinforcing the category's dominance

### G. Sales by Sub-Category

- **Phones:** Highest (330,007)
  - **Chairs, Storage, Binders:** Strong performers
  - **Appliances & Fasteners:** Lowest performance
- 

## 7. Insights & Findings (Expanded Version)

### 1. Regional Performance

- **West Region leads with 31.58% of total sales**, making it the strongest market.
- **The South Region** shows *weak profit margins*, signaling high costs or heavy discounting.

### 2. Product Category Analysis

- **Technology** is the main profit driver with the **highest profit margin (145,454.95)**.
- **Furniture** has the lowest profitability (18,451), despite generating notable sales.
- Possible reasons: high shipping cost, low margins, high return rates.

### 3. Sub-Category Leaders

- **Phones** dominate sales (330,007).
- Office supplies and some furniture sub-categories underperform.

#### 4. Yearly Trends

- **2015–2016:** Strong growth period
- **2014 & 2017:** High sales but low profit, hinting poor cost management or operational inefficiencies.

#### 5. Sales by Category

- **Technology:** 836,154 (highest)
- **Office Supplies:** 719,047 (lowest)

#### 6. Top Product

- **Canon ImageClass 2200** is the highest-selling and most profitable item, reaffirming the importance of the technology segment.
